

## EarthEd Workshop Logistics:

**Contact info:** My cell number: 805-705-0514. I'm available. Call if needed.  
**Upham Hotel:** 1404 De LaVina, 805-962-0058, <http://www.uphamhotel.com>

**Airport arrivals:** Take a shuttle or cab to the Upham Hotel. The grant pays for this.

**Drivers:** I suggest you get the map to the Upham hotel from their web site. Take the Arrellaga turnoff from the freeway (coming from the South). The cross streets are Sola and De LaVina.

**Please be available to transport those without cars to and from UCSB.**

**Spouses or partners:** I have planned a dinner for us at the Beachside Restaurant for Wednesday evening. Please let me know if you have a partner who will attend so I can reserve for an adequate number.

### Wednesday, July 30 morning schedule:

7:00AM Buffet breakfast at the Upham for those staying at the Upham

8:00AM Meet in Upham lobby for transit to UCSB. I am counting on those who have cars to provide transport to UCSB.

- Go North on the 101 freeway (it's really West, but so what?) to Ward Memorial Rd (about 8 miles from the Upham), a well-marked freeway turnoff to UCSB. Prepaid parking stickers will be available at the East gate Kiosk to the campus (the one you will end up at from Ward Memorial). Ask the attendant for instructions to lot 6 or 10, and a instructions to the Physical Science South building.

8:30AM Workshop begins at Physical Science Building South, room 2712. This building is adjacent to Broida Hall, the Physics Building. Get a map at the campus entry kiosk.

**Reminder:** I hope that you will each want to share your expertise in online learning with us. I have set aside 5 minutes for each of you to share this information. There will also be plenty of additional time for discussion, so I hope you can get the major points in this very brief time window. I'll have an overhead projector and a data projector. If you want to make a powerpoint presentation, put it on a zip drive and I can load it into my Mac.

- A conference notebook containing all materials will be available at the conference location.
